Cadix, Jan. 19. N. S.

THE Medway, Captain Baker Commander, is come in here from Tangier; and has brought with him two Moorish Officers as Hostages for Captain De-lavall and Captain Watkins, who are appointed to Treat with that Government for the Redemption of the English Captives at Salée.

Warsaw, Jan. 21. An Express arrived here this day from the Congress at Carlowitz in Hungary, with the welcome News, that the Treaty for a Truce of 25 Years between this Crown and the Port was signed on the 15th Instant, and the King has ordered, that the Ratifications of the same be forthwith dispatched. This Treaty is very advantageous to Poland, being by it restor'd to the Possession of Caminie in the Condition 'twas when the Turks took it, and of all Podolia; which will secure our Frontiers against the Excursions of the Tartars. The Negotiations for adjusting the Differences between the Cardinal Primate and the Bishop of Cujavia are continued, wherein a good Progress is already made; but the Meeting of the General Diet is put off till the Month of May. The Baron of Walling arrived here on the 19th Instant with the Character of Envoy from Sweden, and has had Audience of the King of Poland, to whom he offered the King his Master's Mediation for accommodating the Affair of Elbing; and we expect, that the King of Poland will shortly appoint his Ministers to treat with those of the Elector of Brandenburg for an amicable Composition of this Affair.

Vienna, Jan. 28. Our Letters from Carlowitz of the 20th Instant give an Account, that the principal Points in Dispute between the Venetians and the Turks, concerning the demolishing of Lepanto and Castel Nuovo, were in a manner adjusted, and that the Mediators and the Imperial Ambassadors continued to employ their Offices for adjusting the remaining Difficulties between them, which relating only to the regulating of the Frontiers of Dalmatia, and the Morea, 'tis probable they will not by either side be thought of. Consequence enough to hinder their signing their Treaty at the same time the Ambassadors from the Emperor and the Czar of Muscovy sign theirs, which was agreed to be on the 26th Instant. The Count of Windisgratz, who was sent some days ago to Modena, with a Procurator for that Duke to marry the Princess of Hanover as Proxy from the King of the Romans, is returned hither, and has brought Advice, that that Ceremony was performed on the 15th Instant; and on the 17th, the Queen begun her Journey hither, being accompanied by the Duke of Modena, who intends to conduct her as far as Roveredo, on the Borders of the Emperor's Territories, where she is to be received by the Prince of Lobkowitz her High-Steward; and the Count de Paar her Master of the Horse, who are gone thither with a very great Retinue to wait for her arrival. The King of the Romans designs to go himself to meet her about a day's Journey, and her Entry into this City is to be on the 24th of the next Month, for which very splendid Prepa-

rations are making. Our Letters from Croatia say, that they had received Advice that the Turks of Bosnia were assembling in order to make an Incursion into the German Territories, upon which the Forces quartered in those Parts, and the Militia of that Province, were in motion to oppose them, but that great Rains were fallen, which very much swelling the Rivers, and spoiling the Passages, had prevented the Enemies Design.

Berlin, Febr. 3. The Elector of Brandenburg returned to this Place on the 31st of the last Month; and the same day the Sieur Leyonstedt, Envoy from Sweden, had an Audience of his Electoral Highness, in which he delivered a Letter from the King his Master, offering his Mediation for adjusting the Affair of Elbing, which 'tis believed his Electoral Highness will accept. The Emperor, the Crowns of France and Denmark, and the States-General of the United Provinces, will also take part in this Mediation; and Bressaw is agreed upon to be the Place of Treaty, whither the Emperor has declared he will send his Plenipotentiaries by the 15th of March, and desires that all the other Parties concerned will do the like. We have Letters from Moscow of the 31st of December, which give an Account, that above 200 Persons had been put to Death, being accused of a Conspiracy against the Czar of Muscovy, wherein the Princess Sophia, his Sister, was suspected to be likewise concerned. The Czar was gone to Norowitz, a Place where his Ships are building, distant about 100 Leagues from Moscow, and was expected back in 10 or 12 days.

Frankfort, Febr. 4. Baron Tetzel is appointed by the Landgrave of Hesse-Cassel to go with the Character of his Envoy Extraordinary to Vienna, to make his Compliments at that Court on the Marriage of the King to the Romans. They write from Wurzburg, that great Interest is making there against the Election of a Bishop of that Diocese, which is appointed to be on the 9th Instant; The Elector of Mentz, and the Baron of Gressenlow Dean of Mentz, are thought to have the greatest number of Voices.

Brussels, Febr. 8. The Electoral Prince of Bavaria, after a Sickness of 8 or 10 days of a violent Fever, accompanied with Vomings and Convulsion-Fits, died on Friday the 6th Instant, in the 7th Year of his Age. He was Son of the present Elector of Bavaria, and of the Arch-Duchess Maria Antonia Josepha his former Wife, who was Daughter of the present Emperor, and the Princess Margareta Theresa, his Wife to his Imperial Majesty, and Daughter to Philip IV. King of Spain. The Elector and this whole Court and Country are extremely affected at so great and unexpected a Loss, and his Electoral Highness is retired for some days to a Monastery at Drenow. The Count de Monasterel is appointed by his Electoral Highness to notify the Prince's Death to the King of Spain; the Baron Simons to the King of England, and Dom Andreas Benito to the most Christian King; and they are accordingly preparing to depart from hence in a few days.

Hague, Febr. 10. Mr. Hill, His Majesty's Envoy Extraordinary to the Elector of Brandenburg, arrived here last Sunday from England, and is gone for Brussels. An Express arrived here last Saturday from Vienna with Letters of the 30th past, giving an Account that the young Count de Stradman was come thither from the Congress at Carlowitz, to give the Emperor an Account, that the Truce of 25 Years with the Turks was actually signed on the 26th of the last Month by the Ambassadors from his Imperial Majesty, the King of Poland, and the Czar of Muscovy, and that the Venetians, who are comprised therein, had in a manner finished their Treaty, and would likewise sign in few days. The Deputies from the Colleges of the Admiralty of Rotterdam, Amsterdam, and North-Holland, continue assembled, but will separate in a day or two.

Dublin, Jan. 26. This day the Lords Justices went with the usual Ceremony and Attendance from the Castle to the House of Lords, and gave the Royal Assent to
